

**Notes from Flip Charts  
Oroville Facilities Relicensing (FERC Project No. 2100)**

The following list was recorded on flip charts during the Engineering and Operations Work Group Meeting.

**Action Items and Notes**

- Ck with Enviro WG to make sure we capture effects related to Ag temp needs and bring back to E&O for review of modeling adequacy.
- Consider review of models built (outside).
- GIS layer recording temp/flow data collection points.
- Include in E-3 analysis that address power impacts from potential changes resulting from other studies.
- Consider multi-WG task forces to further develop & coordinate SP's.

**Studies**

- French Creek Option for additional hydro
- Next WG meeting Agenda
  - E3
  - E4
  - E8
  - Modeling Scheme – How are we really going to do this?
  - Check in points for Work Group input
- Feb 1 conf call Plenary update 1-2 pm
